<b>Notes</b>									<b>Sub-total</b>	-367780			<b>TOTAL WITHIN 25 MILES</b>	<b>450.66</b>
									<b>Waste tonne/mile saving (miles) (5)</b>	1109260				

1 Nearest landfill in 2012 taking into account current planned life expectancy of all sites

2 Calculated using Microsoft Map Point 2006

3 Based upon a combination of EA data (Waste Data Flow & Licensing) and WRG operator knowledge

4 Based Upon WRG Eastcroft Extension Landfill Data Analysis (Fichtner May 2008)

5 Theoretical waste tonnes vehicle miles pa saved based on all waste going to Eastcroft as opposed to the nearest landfill (irrespective of Eastcroft capacity)
